For circulars, containing full information as nence, I concluded to make a trial of it, and to my great satisfaction, my cough gradually grew better, the hole in my side began to heal, and I am now happy to say, from a poor and almost hopeless skeleton, I have become healthy, and weigh more than I ever have. My sufferings were intense, almost beyond endurance, being obliged to sit up night after night, from inability to sleep in bed.

Last Fall I felt the symptoms earlier than usual in the season, but hearing that Dr. Swayne's Compound Syrup of Wild Cherry was a sovereign remedy for Diseases of the Lungs, I immediately commenced its use, and the result was almost immediate relief. For the last six weeks I have not and says he was bound to Jon W. Important Caution -- Read! Read! There is but one genuine preparation of Wild Cherry, and that is Dr. Swayne's, the first ever offered to the public, which has been sold largely throughout the United States and some parts of Europe; and all preparations called by the name of Wild Cherry have been put out since this, under cover of some deceptive circumstances, in order to give currency to their sales. Each bottle of the genuine is enveloped with a beautiful steel engraving, with the likeness of William Penn thereon; also D. Swayne's signature, and as a further security, the portrait of Dr Swayne will Le added hereafter, so as to distinguish his prepa- interests of their pupils. rations from all others.

This remedy is one which has proved success ful for a long time, and it is universally acknowledged by all who have tried it to be far superior (being so very pleasant to the taste, at the same time effectual,) to any other medicine ever employed in diseases for which it is recommended. It not only destroys worms, but it invigorates the whole system. It is harmless in its effects, and the health of the patient is always improved by its use, even when no worms are discovered. Dr Swavne's Vermifuge has met with a degree of favor from the public, which has perhaps never before been accorded to any medicine. It needs no recommendation wherever it is known. To the fond mother, bending in sleepless anxiety over her wasting child, it will carry relief joy, and thankulness; to all who are suffering from the diseases for which it is prepared, it offers a speedy res-

toration to health Remember! the genuine is put up in Square Bottles, with the portrait of Dr Swayne on each

TO THE PUBLIC .-- This preparation has acquired a very extended and established celebrity in most of the Southern States of the Union ; both in the hands of Physicians and private use; which its efficacy alone has sustained for several years, as a remedy for Scrofula or King's Evil, Ulcerated Sore Throat, long standing Rheumatic Affections, diseases of the skin, old sores, white swellings, diseases of the bones, and all cases of an ulcerous character. It is also particularly useful in chronic and nervous complaints occurring in debilitated and cachetic constitutions of asse Sike hitherto incurable affections resulting therefrom, such as ulcers of the throat, larynx, nodes, &c., and all those evils occasioned by an improper and injudicious use of " mercury," it displays complete

control. It has been found to be a most useful purifier of the blood in all such diseases. In all complicated cases of Scrofula and Syphilis, and in cases where the Syphilitic virus of the parent causes a development of Syphilis or Scrofula in the child, this is the only remedy upon which the hope of recovery can be reasonably founded. It relieves the disease, and at the same time imparts vigor to the whole system-under the use of this medicine, the patient is enabled to take nourishing food, which in other practice is withheld. In many cases where the horrible ravages of disease have taken so deep root that patients have been given up by the most skillful Physicians, the disease has been arrested and the parient

able expectations fully satisfied. The cures performed in this city alone, are sufficient to establish its reputation on a permanent basis, and too solid to be effected either by that the greater part of the patients cured had, previously to using this preparation, received the best medical treatment, and given up by their physicians as being beyond the reach of medical skill.
